MCIG RR Report for 02/13/2024

The Updated Bylaws have been approved by Region 4 Trustee and sent to WSO showing that our intergroup Bylaws ARE NOT in conflict with WSO bylaws. This was necessary before we transition to a new region.

The application for use of the OA logo has also been approved. It is good for 2 years, so must be updated again before 2/2/2026. We have been approved for blanket use of the OA logo, which means we can continue the use of the logo on the table cloth for Health Fairs, and continue to use the logo on our website. However, there is a need for us to correct the logo on our website, and Ginny has agreed to work on that. The blanket approval allows us to use the logo on flyers, posters, newsletters, meeting lists, stationery, business cards, and soon on billboards, bus/transportation posters, service body's bylaws, summary of purpose and/or policies and procedures manuals and social media sites!

We have also received notice that our application for funding for public outreach in the amount of \$2500 has been approved. We should receive the check shortly. This will pay for another round of radio ads. Since we do not have a PO chair, someone must look into getting the 2 nd round set up.

Finally, the committee working on the final Region 4 convention has announced that they were unable to get a contract from the hotel we were working with, therefore, the Convention has been cancelled.

Please announce this in your meetings. It is sad, but the right decision in my opinion.
